HARMONICS

# WHAT'S MEANT BY HARMONICS IN ASTROLOGY?

- Harmonics are how various interplanetary relationships add up to form a numerically ordered pattern that has a unique meaning.
- Essentially, we're talking about aspects applied to various meanings associated with numbers, most often prime numbers, like 1st harmonic (conjunction), 2nd harmonic (opposition), 3rd harmonic (trine), etc.
- Compound harmonics, like the 4th (square) or 6th (sextile) are a multiple of prime numbers like 2 for the square or 3 & 2 for the sextile.
- We can create various harmonic charts based on the original natal chart.

# SQUARING THE CIRCLE...

- You can re-arrange your natal chart into various harmonics for free at [astro.com](http://astro.com) or by hand using a method that Bob Marks teaches here: <http://www.bobmarksastrologer.com/harmonics32.1.html>
- The important thing to know is that a harmonic chart matches up planets & points, like your MC or ASC, to resonate at particular "frequencies" together. For instance, planets separated by squares in your natal chart come together at the 4th harmonic. Or planets in trine become conjunctions at 3rd harmonic.
